

## November 2020 Newsletter

**Welcome to our spring “Bamboo update” newsletter, featuring recent projects, articles and images of how customers are using some of our beautiful, natural bamboo products in their homes and workplaces around New Zealand.**

### Plan Ahead

It certainly pays to plan ahead with any upcoming build or renovation projects at the moment as we've had significant sales growth over the last few months, creating challenges with maintaining stock

levels across our two warehouses. We can reserve and allocate stock for you on payment of a deposit – to reduce the risk of missing out on items when required.

### Bamboo X-treme decking – the word is getting out!

People are becoming more familiar with bamboo x-treme decking, after seeing or hearing about this amazing decking product – which is now well proven in the NZ market as a high performing, sustainable decking option.

A Tauranga customer installed bamboo x-treme decking over three years ago for his new pool/decking project and recently chose to oil it back to a darker-brown colour. He gave us this feedback:

**“Nearly 3 years in the Tauranga sun and not a warp, buckle or twist in sight. Still as flat as the day it was put down! Great decking product!”**

*– Iain, Tauranga*

## Near the beach?

A common question we get is “can bamboo x-treme decking be used near the beach or coast?” The answer is “yes!”. This decking is very dense, stable and suitable for all weather conditions – from snow and ice, to extreme heat – including our NZ coastal

conditions. The decking comes with “invisible” fasteners– made from powder-coated stainless steel clips, and screws – minimising risk of rust. Check out this beautiful bamboo x-treme decking installation on the beach promenade in Israel.

## DIY Deck transformation

A Carterton customer upgraded his old pine deck to bamboo x-treme decking and sent us before and after photos. We think he did a stella job!

BEFORE

AFTER

*“I love the bamboo decking! I'm so glad I chose it over other timbers. The clip system is great and the finished effect is fantastic.”*

– Brendan, Carterton

With correct joist set-up, bamboo X-treme decking can be quickly installed using the powder-coated stainless steel clip and screw fixings supplied (for “invisible” fixing – no unsightly nails or screws visible).

This system saves up to 50% in time and cost of labour to install the decking boards.

## Gorgeous new kitchen & dining renovation!

Owners of Wright Kitchens and Cabinetry in Upper Hutt, Mel and Stu Wright recently designed and made their own kitchen.

The couple wanted to make their dream kitchen as part of their home renovation plans, after having made many kitchens for customers over the years

# Special price on Chocolate Bamboo Flooring

**\$64+GST per sqm**

We have a small amount of "chocolate" compressed bamboo flooring left in stock – and can offer this at a special price of \$64+GST per sqm (was \$73), while stocks last.

This is an "end of line" special for this darker bamboo flooring option. Get in touch for more information and to secure this fantastic deal!

## Projects using our bamboo panels...

We love receiving photos of how customers are using our bamboo panels in their many and varied projects.

**1. Lovely trestle tables** (with folding legs), made from vertical bamboo panels, by Truly Yours in Christchurch. "The bamboo panels were great to use for our hire company matching our business values. We stock modern furniture while offering environmentally friendly products. Being both a durable and strong material they were the perfect fit our business"  
 - Jamie, Truly Yours

**2. Café counter tops** at Sorella Café in Auckland

**3. Stunning bathroom vanity unit** (vertical natural bamboo panel)

**4. Fold out table** for a camper van

## Amazing Bamboo

Isn't it amazing how beautiful products like bamboo panels, decking and flooring (and many other things!) are made from moso bamboo - which grows as a raw material so fast and abundantly in China (and around the world).

From being sustainably harvested by farmers in rural China, to being made into all sorts of incredible

products for us and others around the world to enjoy. Bamboo is truly an incredible plant and has such potential in the future too...
