

Feb 2022 Newsletter

Welcome to our February “Bamboo update” newsletter, featuring recent projects, articles and images of how customers are using our beautiful, natural bamboo products in their homes and workplaces around New Zealand – and the world.

Christmas Photo Competition ... and the winners are...

We were overwhelmed with so many lovely photos sent in from customers of their new bamboo flooring, decking, benchtop or other project.

So much so, that we added another Christmas hamper – and sent out four lovely hampers. Thanks to all those who took part and sent in photos. Here are a few of the “winning” entries.

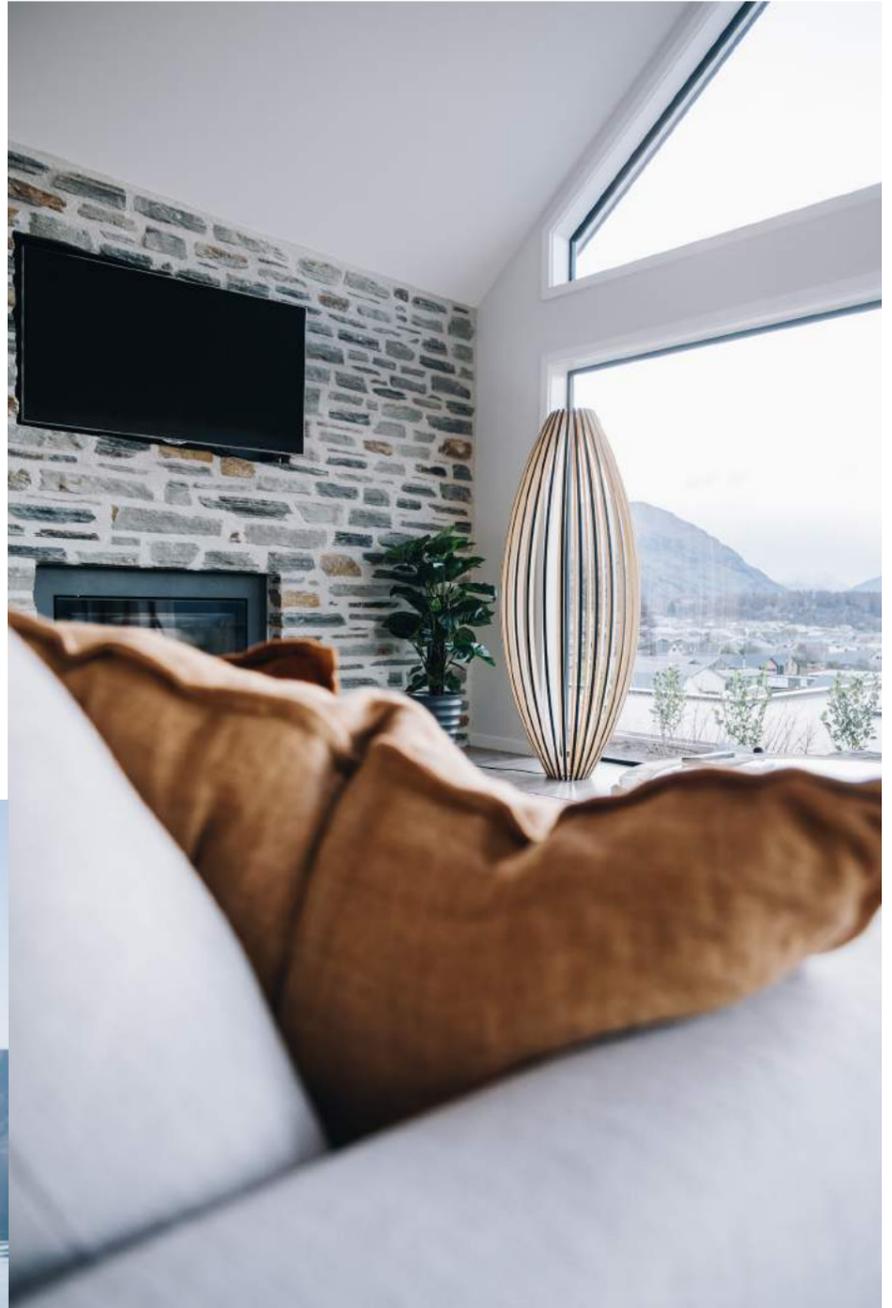

1. Bamboo elite flooring and benchtop – Nelson
2. Bamboo x-treme decking – Napier
3. Bamboo bench and table (compressed natural 40mm panel) - Auckland
4. Compressed bamboo flooring (coffee colour) - Porirua

Modern, Striking Lamps by young Designer

Gus Leen is a young Industrial Designer based in Timaru - who has a passion for creating ambient, sculptural lighting and furniture products in his joinery workshop, situated on his family's farm.

Here, Gus designs, prototypes, and manufactures his products, distributing them to stockists & customers nationwide. [Read more >](#)

Want to see our Bamboo products first hand?

We send out samples of our bamboo product range every day, to prospective customers all over New Zealand. However, if you'd like to see a larger size or get a better idea of what some options look like, we have "mini showrooms" at each of the Home Ideas Centres in Auckland, Wellington and Christchurch.

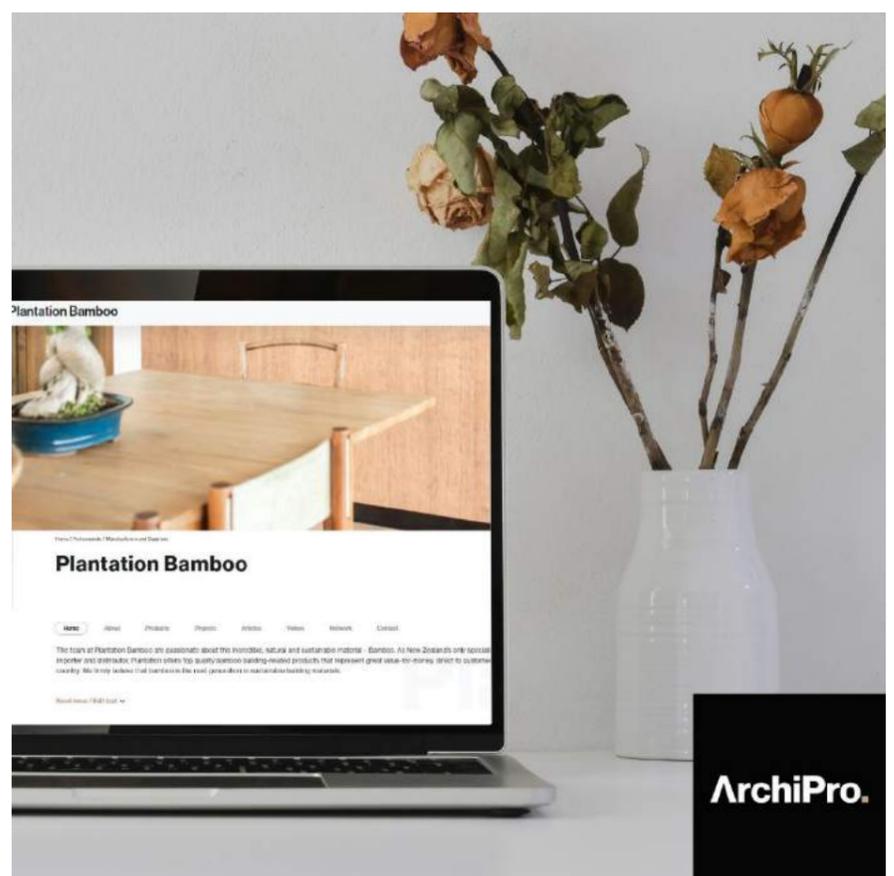

Home Ideas is a great place to visit to see a wide range of building-related products and get some inspiration for any future renovation or build project. You can browse at your leisure through over 100 or so displays – without any pushy salespeople too!

[Find your nearest Home Ideas Centre >](#)

Want inspiration? Check out the Archipro website

If you're looking for some fresh ideas, products, professionals for your next renovation or build project, we suggest you have a look at Archipro – an all-in-one digital platform that assists homeowners on their building journey by connecting them with professionals and product suppliers in the industry.

Bamboo Products - A Sustainable Choice

Bamboo is one of the fastest growing, renewable resources in the world. It absorbs CO2 in large quantities.

With its properties comparable to hardwood, Moso bamboo is the ideal alternative to increasingly scarce tropical hardwoods.

[Here is a link](#) to our Dutch partner/supplier's website where they explain why bamboo is the most sustainable choice.

please

plan ahead

A common theme we're seeing across the building and construction industry is the need to plan well ahead, as many businesses are struggling with their supply chains and getting products to market. We've had a few challenges too, but have pretty good stock levels at present, with lots more on the way to our two warehouses.

However, with the recent covid/Omicron outbreaks, we can foresee potential challenges with getting orders out of our warehouses and delivered to customers. We suggest planning well ahead and being prepared for potential delays with deliveries – in these very “uncertain times”.

More Information

Please check out our website for lots of photos and information of our range of bamboo building-related products - www.plantationbamboo.co.nz As usual if you have any questions or if we can help you with anything bamboo-related, please get in touch with any of our friendly team.

Best regards,
Steve Roughan
